

Kenzie Academy provides an in-depth, technical education delivered in a career-focused format. As a Kenzie student, you'll be empowered to:

• **Future-proof your career**

At Kenzie, you'll learn from industry professionals and get hands-on experience directly relating to real-world jobs, preparing you to tackle the ever-changing marketplace.

• **Build your portfolio**

Immerse yourself in a project-based curriculum to truly absorb the material, apply it to create real-life solutions and gain job-relevant experience (unlike a bootcamp).

• **Level up your life**

The current average salary of Kenzie graduates is \$57k, and the majority of our students land a job offer within 6 months of graduation. Our national network of employer partners assists with job placement and advises our curriculum to equip students with the skills they need to get hired.

UX DESIGN CAREER PROGRAM

WHAT IS UX?

UX Design is the art and science of creating user-focused design for websites, applications, and platforms. These tech professionals create thoughtful user-driven interfaces and designs that are enjoyable and easy to use. UX Designers are pros at empathizing with users' needs and advocating for consumers who use their products while also possessing the front-end skills needed to bring their ideas to life.
